- Make-up & Color Cosmetics
- Fine Soaps
- Bath & Body Oils
- Eye Care Products
- Shampoos & Conditioners
- Styling Products
- Anhydrous Systems
- Lip Products
- Anti-aging/Anti-wrinkle Products
- Sensitive Skin Treatments

LIPOVOL® A

INCI NAME Persea Gratissima (Avocado) Oil **SOURCE** Avocado **APPEARANCE** Pale yellow to yellow liquid

Lipovol® A is expressed from avocado pulp. Lipovol® A imparts a creamy, non-greasy afterfeel. Its rapid spread is advantageous to bath, body and skin care oils. Its low odor, bland taste and high film gloss make it ideal for use in lipsticks, lip glosses and lip balms. *A version with 0.02% BHA is available.*

LIPOVOL® ALM-N

INCI NAME Prunus Amygdalus Dulcis (Sweet Almond) Oil **SOURCE** Sweet Almond Seed **APPEARANCE** Clear, slightly yellow liquid

Lipovol® ALM-N is derived from the ripe seed kernels of the almond tree, and contains oleic acid (60-70%) and linoleic acid (20-30%). It is an excellent emollient, known for its stability due to high levels of oleic acid. Lipovol® ALM-N provides a light non-greasy feel ideal for use in skin and hair care products.

LIPOVOL® ARGAN

INCI NAME Argania Spinosa Kernel Oil **SOURCE** Argan Kernel **APPEARANCE** Clear yellow liquid

Lipovol® Argan is pure argan oil cold pressed from Argania Spinosa seeds grown exclusively in southwest Morocco. Lipovol® Argan contains high percentages of Omega-6 (Linoleic C18:2) and Omega-9 (Oleic C18:1) fatty acids. Possessing reparative properties, Lipovol® Argan provides outstanding benefits in skin, hair, nail and makeup applications and is an ideal treatment for damaged, frizzy and chemically treated hair due to its high affinity to the hair fiber.

LIPOVOL® BORAGE

INCI NAME Borago Officinalis Seed Oil **SOURCE** Borage Seed **APPEARANCE** Clear yellow to golden liquid

Lipovol® Borage is rich in essential fatty acids and is well known for being the richest commercial plant source of gamma-linolenic acid (GLA). Numerous studies have shown the topical application of oils containing GLA will effectively repair severely dry skin. Many studies suggest that borage oil has anti-inflammatory and healing properties.

LIPOVOL® C-76

INCI NAME Cocos Nucifera (Coconut) Oil **SOURCE** Coconut **APPEARANCE** White to pale yellow solid to semi solid

Lipovol® C-76 is a source of saturated fatty acids, excellent for conditioning damaged hair (dry and wet). It can easily penetrate the hair fiber, providing shine, hydration, and softness to the hair. Lipovol® C-76 is ideal for use in hair conditioners and hair masks. Additionally, this oil provides hydration and nutrition to skin care and lip care formulations. It is also suitable for sensitive and delicate skin.

LIPOVOL® CAN

INCI NAME Canola Oil **SOURCE** Rapeseed **APPEARANCE** Clear, bright yellow oily liquid

Lipovol® CAN is rich in unsaturated fatty acids and vitamins. Lipovol® CAN provides a light and fluffy sensorial benefit and can be absorbed quickly by the skin and hair. It is ideal for hair conditioning products as it provides shine and moisture.

LIPOVOL® CO

INCI NAME Ricinus Communis (Castor) Seed Oil **SOURCE** Castor **APPEARANCE** Yellow to amber viscous liquid

Lipovol® CO is castor oil that imparts a velvety skin feel when used in skin care products. Lipovol® CO is rich in ricinoleic acid, with anti-inflammatory properties. It is commonly used in lip formulations due to its softness and pigment dispersing properties. *A version with 0.02% BHA is available.*

LIPOVOL® COT

INCI NAME Gossypium Herbaceum (Cotton) Seed Oil **SOURCE** Cottonseed **APPEARANCE** Clear, bright yellow oily liquid

Lipovol® COT is a medium emollient oil for skin care. It is substantive to the skin providing a unique feel and skin conditioning properties. Lipovol® COT primarily contains palmitic acid, oleic acid and linoleic acid and is rich in antioxidants, especially vitamin E, which helps in the proper functioning of cells.

LIPOVOL® CRAMBE

INCI NAME Crambe Abyssinica Seed Oil **SOURCE** Crambe Abyssinica Seed **APPEARANCE** Clear to slightly yellow

Lipovol® Crambe possesses a unique feel. It adds a non-greasy shine to hair and is a lubricious emollient that quickly penetrates the skin. Lipovol® Crambe increases moisturization in skin and adds softness to hair. Lipovol® Crambe contains 0.08% tocopherols.

LIPOVOL® EVENING PRIMROSE **INCI NAME** Oenothera Biennis (Evening Primrose) Oil **SOURCE** Evening Primrose **APPEARANCE** Clear to slightly yellow liquid

Lipovol® Evening Primrose is a superb emollient and skin nutrient high in gamma-linolenic acid (GLA). It is extremely beneficial to dry skin and scalp. Applications include intensive treatment products that require non-occlusive moisturization.

LIPOVOL® G **INCI NAME** Vitis Vinifera (Grape) Seed Oil **SOURCE** Grape Seed **APPEARANCE** Yellow to green-amber liquid

Lipovol® G is a light emollient oil obtained from grape seeds. Lipovol® G is an excellent source of vitamin E and linoleic acid (omega-6). Its high film gloss makes it ideal for use in hair applications and make-up. Lipovol® G provides hydration and softness to skin care products. *With 0.02% BHA and 0.03% tocopherols versions available.*

LIPOVOL® GTB **INCI NAME** Tribehenin **SOURCE** Rapeseed **APPEARANCE** Off-white wax flakes

Lipovol® GTB is an emollient wax used to impart body and richness to skin care products. It is also well suited for adding structure and substantively to lip products.

LIPOVOL® HS **INCI NAME** Hydrogenated Soybean Oil **SOURCE** Soybean **APPEARANCE** Clear to light yellow liquid

Lipovol® HS is a highly refined soybean oil that is partially hydrogenated to increase stability. Lipovol® HS exhibits excellent stability which makes it a superior carrier for essential oils and other oil-soluble components.

LIPOVOL® MAC **INCI NAME** Macadamia Ternifolia Seed Oil **SOURCE** Macadamia Nut **APPEARANCE** Clear yellow to amber liquid

Lipovol®MAC is a great source of unsaturated fatty acids, mainly palmitoleic acid. It has good absorption and is soft and elegant. It is moisturizing and conditioning while providing a non-tacky and elegant feel to the skin and hair.

LIPOVOL® O **INCI NAME** Olea Europaea (Olive) Fruit Oil **SOURCE** Olive **APPEARANCE** Clear dark yellow with green tint liquid

Lipovol® O is ideal for skin care and hair care products where a medium non-greasy feel is desired. Lipovol® O improves the barrier function, balancing the skin's hydration system. It is a powerful antioxidant, inhibiting the action of free radicals.

LIPOVOL® P and LIPOVOL® APRICOT – DWJ **INCI NAME** Prunus Armeniaca (Apricot) Kernel Oil **SOURCE** Apricot Kernel **APPEARANCE** Clear to slightly yellow liquid

Lipovol® P and Lipovol® Apricot – DWJ are the oils pressed from the kernels of varieties of Prunus Armeniaca (apricot). Apricot kernel oil is a highly unsaturated emollient providing natural moisturization. It is a light oil that is good for sensitive or inflamed and dry skin. It is recommended when adding emolliency to make-up, skin and hair care products. It has a soft non-tacky afterfeel and high film gloss.

LIPOVOL® PAL **INCI NAME** Elaeis Guineensis (Palm) Oil **SOURCE** Palm **APPEARANCE** Soft solid to semisolid fat

Lipovol® PAL is derived from the fruit of palm and is rich in vitamin E. It provides softness and a pleasant sensory feel to formulations in skin care and hair care and leaves a lubricious feel.

LIPOVOL® RB **INCI NAME** Oryza Sativa (Rice) Bran Oil **SOURCE** Rice Bran **APPEARANCE** Clear oily liquid

Lipovol® RB is a natural vegetable oil with a light feel and medium lubricity. Lipovol® RB provides a light elegant feel to skin care formulations. In hair care, Lipovol® RB softens the hair and provides shine.

LIPOVOL® SAF **INCI NAME** Carthamus Tinctorius (Safflower) Seed Oil **SOURCE** Safflower Seed **APPEARANCE** Clear, slightly yellow liquid

Lipovol® SAF is a good source of vitamins and essential fatty acids, especially omega-6 and 9. Naturally high levels of oleic acid create resistance to rancidity, irritation and color degradation, and allow this oil to be a botanical alternative to mineral oil and synthetic ester emollients. Safflower oil is widely used in skin care and color cosmetic applications.

LIPOVOL® SAFFLOWER HO- DWJ **INCI NAME** Carthamus Tinctorius (Safflower) Seed Oil **SOURCE** Safflower Seed **APPEARANCE** Clear, slightly yellow liquid

Lipovol® Safflower HO- DWJ is a good source of vitamins and essential fatty acids, especially omega-6 and 9. Naturally high levels of oleic acid create resistance to rancidity, irritation and color degradation, and allow this oil to be a botanical alternative to mineral oil and synthetic ester emollients. Safflower oil is widely used in skin care and color cosmetic applications.

LIPOVOL® SES **INCI NAME** Sesamum Indicum (Sesame) Oil **SOURCE** Sesame **APPEARANCE** Clear yellow liquid

Lipovol® SES is the refined triglyceride oil obtained from sesame seeds. It is a natural oil ideal for make-up, skin treatment and hair-care products. It is rapidly absorbed, providing a soft and gentle feel to skin. It enhances skin gloss and is advantageous in bath and body oils. It has antioxidant properties, acting against free radicals that cause premature aging. *An organic version is available.*

LIPOVOL® SOY **INCI NAME** Glycine Soja (Soybean) Oil **SOURCE** Soybean **APPEARANCE** Clear light to yellow liquid

Lipovol® SOY is derived from soybeans and is rich in protein and essential fatty acids. It provides softness and a pleasant sensorial feel for skin care and hair care formulations.

LIPOVOL® SUN **INCI NAME** Helianthus Annuus (Sunflower) Seed Oil **SOURCE** Sunflower Seed **APPEARANCE** Light yellow oily liquid

Lipovol® SUN is derived from sunflower seeds. It is known to film form to prevent transepidermal water loss (TEWL) making it ideal for dry skin. Lipovol® SUN spreads rapidly and is recommended for hair products, lipsticks, balms and gloss, as well as bath and body products. *With 0.02% BHA, high oleic and high oleic Organic versions available.*

LIPOVOL® TEA TREE **INCI NAME** Melaleuca Alternifolia (Tea Tree) Leaf Oil **SOURCE** Tea Tree Leaf **APPEARANCE** Clear, colorless to faint yellow liquid

Lipovol® Tea Tree is an essential oil obtained from the Australian tea tree Melaleuca alternifolia. It possesses antifungal, antibacterial and antimicrobial benefits. Lipovol® Tea Tree is used in a variety of applications including body lotion, moisturizer, deodorant, and shower gels. Tea Tree's aroma adds appeal when mixed into soaps, shampoos, creams and perfumes.

LIPOVOL® WGO-N **INCI NAME** Triticum Vulgare (Wheat) Germ Oil **SOURCE** Wheat Germ **APPEARANCE** Clear to slightly yellow liquid

Lipovol® WGO-N is extracted from wheat germ and is a good skin nourisher that also contains a high amount of natural tocopherols. This viscous oil is used to treat dry or cracked skin, and is known to soothe skin problems such as eczema.

*A variety of Natural Jojoba Oils are also available.
